

INTEGRATOR WORKSHOP

Build. Integrate. Deploy.
Real solutions. Real robots. Real results.

Join ForwardX Robotics for an interactive workshop designed specifically for systems integrators. Explore our AMR portfolio, learn integration and deployment best practices, connect with our technical experts, and participate in live robot demonstrations and hands-on exercises.

 **TUESDAY, JUNE 30**

 **9:00 AM – 5:00 PM**

 **Working Lunch Provided**

 **Networking Reception: 6:00 PM – 8:00 PM**
At a local restaurant

 **Hosted at ForwardX HQ**
at Detroit Newlab

We want to make this workshop as valuable as possible for you. If there are specific topics, use cases, demos, or integration challenges you would like us to cover, please let us know and we will work them into the schedule.

If you cannot make it but would like to, please reach out to us and we will find a different way to accommodate you and your team.

Detroit Newlab Exterior

Detroit Newlab Interior

WORKSHOP HIGHLIGHTS

1. AMR Product Portfolio
Models, applications, capabilities, and roadmap

2. Hardware, Navigation & Safety
Mechanical design, sensors, localization, and compliance

3. Fleet Management Software
Job queuing, traffic control, monitoring, and scalability

4. Integration & APIs
WMS, MES, ERP, PLC connectivity and practical integration patterns

5. Deployment & Support
Site assessment, commissioning, optimization, maintenance, and troubleshooting

6. Hands-On Labs & Live Demos
Robot setup, mapping, mission creation, and API exercises

The Complete AMR Portfolio.
Built for Integration.

WHO SHOULD ATTEND

Systems integrator leadership, sales teams, solutions engineers, controls engineers, software developers, project managers, and deployment specialists.

RESERVE YOUR SPOT
